## ABOUT MAPLE

Maple Façades is a leading designer, manufacturer and installer of solar shading, weather protection and screening for building exteriors and interiors. Since 1983, we've been combining innovation, technical excellence and exceptional customer service to deliver projects that save energy, create visual impact and make buildings more comfortable for their occupants.

Based in the UK, we're best known for our architectural façades, louvres and brise soleil — so rainscreen cladding systems were a natural extension to our range. Using our design expertise and unrivalled understanding of the sector, we've created a class-leading, commercially viable system that's high-performing, strong and easy to install.

Today, we work with construction companies on individual projects and large developments, while many of the UK's leading architects trust us to turn their visions into practical, beautiful and award-winning reality.

Maple Façades Ltd

Bramhall Moor Technology Park, Pepper Road, Hazel Grove, SK7 5SA
